Development

BACKGROUND

Sasol participates in education-based programs throughout the communities where our employees live and work. Partner in education programs are most often collaborative efforts between the company, a local school and school board or governing body and the local chamber of commerce.

PARTNER SCHOOLS

Currently, Sasol has four established Partners in Education schools in North America:

- Combre-Fondel Elementary
Lake Charles, LA
- Emerson Elementary
Houston, TX
- Western Heights Elementary
Westlake, LA
- Westwood Elementary
Westlake, LA

PROGRAM PORTFOLIO

Through these partnerships, Sasol employees take an active role in engaging students in programs that foster mentorship and life skills development. Sasol's Partners in Education program enhances school-based science, technology, engineering and mathematics curriculum as well as educator professional development programs. We do this hand-in-hand with local school administrators and community partners. Below are a few of the programs Sasol leads in our Partners in Education schools:

**Big Brothers
Big Sisters.**
OF SOUTHWEST LOUISIANA

Big Brothers Big Sisters of Southwest Louisiana

Provides tutoring, life skills and counseling to students facing adversity using employee mentors and role models through a lunch buddy mentorship program.

Junior Achievement®

Junior Achievement of Southwest Louisiana

Facilitates in-school programs and after-school programs that foster work-readiness, entrepreneurship and financial literacy skills and experiential learning.
